

RAJ MAHAJAN

Software Test Engineer | QA & Test Automation

Pune, Maharashtra | +91 78988 44853 | mvrj7898@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software Test Engineer with hands-on experience in manual and automation testing, gained through a production QA role at Callybre. Skilled in Selenium WebDriver, TestNG, Cucumber (BDD), Postman, and Playwright, with a strong track record designing test cases and executing Functional, Regression, Smoke, Integration, and End-to-End test cycles. Identified and tracked 50+ defects to resolution in Jira, with sharp attention to detail across UI, API, and database validation. Working knowledge of React.js and Node.js enables faster root-cause analysis and closer collaboration with development teams.

PROFESSIONAL EXPERIENCE

Software Test Engineer Intern — Callybre

April 2026 – Present

Key Tools: Selenium WebDriver, Playwright, TestNG, Postman, Page Object Model (POM), XPath, Jira

- Performed manual and automation testing of web applications using Selenium WebDriver, Java, and TestNG within a Page Object Model framework.
- Built and maintained automated UI test scripts using Playwright for cross-browser functional and regression coverage.
- Designed and executed test scenarios and test cases covering positive, negative, and edge-case flows.
- Carried out Functional, Smoke, Sanity, Regression, Retesting, Integration, End-to-End, and Cross-Browser testing across releases.
- Identified, documented, and tracked 50+ defects in Jira, including reproduction steps, severity/priority classification, and post-fix retesting.

TECHNICAL SKILLS

Testing & QA	Manual Testing, Selenium WebDriver, Playwright, TestNG, Cucumber (BDD/Gherkin), API Testing, Postman, Page Object Model
Testing Types	Functional, Regression, Smoke, Sanity, Integration, End-to-End, Cross-Browser, Database, Exploratory, UI Testing
Defect Management	Jira (logging, severity/priority, retesting), Test Case Design, Bug Reporting
Programming	Core Java
Web & Backend	HTML5, CSS3, React.js
Databases	MongoDB, MySQL (SQL query validation)
Tools & Platforms	Git, GitHub, Jira, MS Excel

PROJECTS

Printer Automation for Business (Print-ATM) | [Live Link](#)

Key Tools: React, JavaScript, CSS, Express.js, MongoDB, AWS S3, Playwright, BDD, Gherkin

- Automated the printing workflow end-to-end, reducing manual printing effort by up to 80%.
- Validated critical workflows — file uploads, PDF processing, pricing calculations, queue management, and print-job execution — through functional, integration, and API testing.
- Wrote Playwright test scripts using BDD/Gherkin scenarios to automate end-to-end regression checks.

EDUCATION

Bachelor of Technology — Computer Science and Engineering

2022 – 2026

Sagar Institute of Science and Technology, Bhopal —

CGPA: 7.52

ACHIEVEMENTS & RECOGNITION

- Project selected for Seed Funding — ₹5 Lakh.
- Winner, Yukti Innovation 2.0 — Best Innovative Idea.
- Winner, Sagar Oral Olympics — Graphics Designing & Motion Graphics.

LANGUAGES

English, Hindi, Marathi
