EXPERIENCE

Software Development Engineer in Test (SDET) — Junior Software Tester

Sep 2026 – Present

Callybre, Bhopal, MP

- Promoted to SDET after the QA internship in recognition of consistent performance, technical growth, and reliable delivery of test coverage.
- Transitioning into automation-focused test design and framework contributions while continuing manual testing responsibilities, with close attention to detail and accuracy across releases.

QA Intern (Software Tester Intern)

Mar 2026 – Aug 2026

Callybre, Bhopal, MP

- Executed 500+ manual and automated test cases monthly, maintaining high standards of accuracy, software quality, and functionality.
- Collaborated with a cross-functional team of 5 developers to refine system requirements and improve product outcomes.
- Identified and reported 100+ defects using JIRA (defect tracking and bug tracking), contributing to a 30% improvement in software reliability and user satisfaction.
- Documented debugging processes and root-cause findings with strong attention to detail, improving team bug-resolution speed by 40%.
- Validated API responses using Postman and verified backend data integrity with MySQL queries as part of end-to-end test coverage.
- Participated in cross-functional and Agile ceremonies, driving discussions on bottlenecks, CI/CD workflow improvements, and process efficiency.

QA Trainee

Dec 2025 – Feb 2026

Callybre, Bhopal, MP

- Completed structured training in manual testing and test automation fundamentals, including SDLC/STLC, test case design, and defect lifecycle management, with close attention to detail and accuracy in every test cycle.
- Practiced test automation with Selenium WebDriver, TestNG, and Cucumber (BDD) and version control with Git/GitHub under mentor guidance.
- Assisted senior QA engineers with test plan execution and issue logging in JIRA, building the foundation for the QA Intern role.

MERN Stack Web Developer (Freelance)

Jun 2025 – Nov 2025

Freelancer, Bhopal, MP

- Designed and developed full-stack web applications using React, Node.js, Express.js, and Tailwind CSS.
- Used Claude CLI to accelerate development workflows and streamline debugging.
